E-safety tips for children

Don't post any personal information online	Keep your privacy settings as high as possible	Think carefully before posting pictures or videos of yourself. Once you've put a picture online, it's not just yours anymore
Never give out your passwords	Don't meet up with people you've met online. Speak to your parent or carer about people suggesting you do	If you see something online that makes you feel unsafe or worried: leave the website, and tell a trusted adult immediately
Remember that not everyone online is who they say they are	Think carefully about what you say before you post something online	Don't befriend people you don't know

The British Council believes that all children have potential and that every child matters – everywhere in the world. The British Council affirms the position that all children have the right to be protected from all forms of abuse as set out in article 19, UNCRC 1989
